

Capability Statement

Terah Capability Statement | V.1.0 | 2011

Your Project Partner

Terah is a leading web design and development consultancy based in sunny Brisbane, Queensland.

We partner with SMEs, start ups, corporations, government departments and educational institutions to deliver solutions that simplify business operation and information management.

Approaches that empower organisations to deliver services and products to their highest potential

Our philosophy is founded on exploring innovative approaches that empower organisations to deliver services and products to their highest potential.

Our philosophy is easy:

We turn complexity into simplicity.

Pleased to meet you

The Terah team is a unique combination of technically talented, and creatively minded individuals. Each are highly experienced professionals who have honed their design and development skills working on 'real world' projects. Happily independent, they also collaborate well as a tight knit team to form a brains trust capable of tackling the most complex challenges.

Get to know us a little better - arrange a meeting today.

Our Services

Terah creates powerful, easy to use websites and web applications. Our focus is on producing scalable, purpose built solutions that achieve your project objectives. Additionally we also deliver specialised training and brand development and graphic design services.

Powerful, easy to use websites and web applications

The following are just some of the many services we offer:

Development

- Content managed websites
- Online stores and shopping carts
- Booking systems
- Mobile payment gateways
- Inventory management systems
- Social media platforms
- Search engine optimisation (SEO)
- Collective buying systems
- E-mail marketing

Additional Services

- Corporate identity design (logos)
- User experience and user interface design
- Search Engine marketing (SEM)

Training

- Catering for small teams and large groups
- Half day and full day workshops
- Flexible delivery arrangements
- Up skilling & professional development

Speaking your language

Our list of coding credentials exceeds what is practical in this small space. Here is just a sample of some of the languages we're fluent in.

- Python
- PHP5
- Ruby
- HTML
- CSS
- Javascript
- Smarty Templates
- XML, XSL and XSLT
- jQuery
- Pãrototype
- MooTools
- dojo Toolkit
- MochiKit
- Ext JS
- YUI
- GWT
- wxPython
- PHP-GTK2
- GTK
- Java
- VB, VBA and .NET

Open Source

All our design and development solutions are built on secure, fully tested, standards compliant, open source technologies. Philosophically speaking we're big believers in open source and what it means to develop solutions free of the constraints that govern proprietary software.

Choose Terah

Arrange a time to come in and meet the team in person. We think you'll like what we have to say.

Contact us
